Will plant almost any variety of seeds except very large seeds, such as Corn, Beans and large seeded Peas. Can be used for Sweet Peas and Beets if the extra Arbor is used. A small brush regulates the feed.

**No. 1.** One rowed Seeder holds about 4 ozs. of Radish Seeds. Handle can be moved in any direction. Price, \$4.00.

**Pricking Rake**, to be used in connection with No. 4, as the space between the teeth is the same as on the seeder. One end of the Rake can be used for loosening the soil between the rows, and the other end can be used as a cultivator or can be inserted in the ground and pulled underneath the plants, cutting all the long tap roots over, instead of transplanting. Price, \$1.00.

We do not furnish the wooden handles for any of these machines.

## Gladiolus Bulbs for the Commercial Grower

Our Gladiolus bulbs are grown for us by a firm which has specialized in gladiolus for 33 years. Their two farms in Minnesota and one in Iowa produce those high crowned, vigorous, disease free young bulbs particularly adapted to florists' needs.

This year we made an exceptionally good contract and are able to offer you gladiolus bulbs of first quality at these unusually low prices.

Only the two larger sizes of bulbs are quoted. Prices on sizes 3, 4, 5 and 6 bulbs and bulblets by the 1000, quart or bushel will be furnished on request.

Prices are per 1000 bulbs, 250 or more at the same rate. Prices are f.o.b. Minneapolis and net cash.
